

Tempo atrás referímonos a Ribeira Sacra como o segredo mellor gardado, pero hoxe xa son moitas as persoas que coas súas experiencias, fotografías e recomendacións fixeron que se desvele o misterio e convertéase no lugar escollido por moitos como destino de experiencias.

Un espazo natural na confluencia dos ríos Miño, Sil e Caba nel que se alternan agrestes gargantas con ladeiras de bosque autóctono engalanadas cos vestixios de civilizacións anteriores. Un pasadizo dende o orixe da vida montañesa e que foi sede moldada durante séculos por moitos como destino de experiencias.

Neste mapa tratamos de recoller unha selección dos recursos que fan de Ribeira Sacra un destino diferente e con capacidade de sorprender e de facer os nosos cativos de viaxe de quen a visita. Os seus recunchos, a súa ventos, as súas estradas... convidan a unha viaxe tranquila, é recomendable tomarse o seu tempo e saborear cada paso e cada lugar.

Os valores desta terra non foron indiferentes a quen ten nas súas mans poder en valor e protexer o noso patrimonio. A data de hoxe estamos mergullados no que, sen risco a equivocación, pode dicir que é o reto máis importante ao que nos enfrontamos como comunidade. Así como a declaración do Patrimonio da Humanidade pola UNESCO como Paisaxe Cultural e vias, que nos dedicamos o noso tempo para coñecer e difundir este legado, soas tan importantes neste proceso como calquera dos elementos dese expediente.

Long ago we referred to Ribeira Sacra as the best kept secret, but today there are many people who, with their experiences, photographs and recommendations, have revealed the mystery and become the place chosen by many as a destination for experiences.

A natural space at the confluence of the Miño, Sil and Caba rivers, where rugged gorges alternate with slopes of native forest adorned with the vestiges of previous civilizations. A landscape where the origin of montane life is based and that has been shaped for centuries by its inhabitants with monuments, paths and terraces.

In this map we have tried to collect a selection of the resources that make Ribeira Sacra a different destination and with the ability to surprise and make room in the travel books of those who visit it. Its corners, its people, its roads... invite you to a quiet journey. It is advisable to take your time and savor every step and every place.

The values of this land have not been indifferent to those who have in their hands to value and protect our heritage. Today we are immersed in the one that, without risk of being wrong, I can say that it is the most important challenge we have faced as a society. Just as we are to a declaration of World Heritage by UNESCO as Cultural Landscape and now we dedicate your time to know and spread this legacy, are as important in this process as any of the elements of that file.
